**RESOLUTION APPROVING THE ESTABLISHMENT OF CUBA LAKE SANITARY

REFERENDUM**

WHEREAS, the Town Board of the Town of Cuba (herein called "Town Board" and "Town", respectively), in the County of Allegany, New York, has, pursuant to Town Law Article 12-A, has caused Clark Patterson Associates, competent engineers duly licensed by the State of New York, to prepare a map, plan and report for the establishment of Cuba Lake Sanitary Sewer District (the "District") in the Town, with proposed improvements consisting of the construction of approximately 8,550 lineal feet of 4" force main piping, 19,700 feet of 6" force main and 13,800 feet of 8" force main, along various roads including but not limited to portions of South Shore Road, North Shore Road and State Route 305. The proposed sewer district will be served by a low pressure grinder pump collection system. A grinder pump will be

installed in an underground chamber located at each individual residence and/or developed commercial property within the proposed District. The grinder pumps will be connected to force main with a small diameter lateral connection. The existing septic systems will be abandoned in place with the existing septic tanks being filled in or removed. All wastewater collected will be conveyed through the force mains directly to the Village of Cuba's wastewater treatment facility. The improvements, including all related right-of-way costs, site work and other ancillary work, including hydrants, valves, apparatus, preliminary costs and other improvements and costs incidental thereto (the "Sanitary Sewer Improvement");

WHEREAS, the project is a joint project of the Towns of Cuba and Ischua pursuant to an intergovernmental agreement between the Towns, with an estimated maximum cost of the total project for both Towns of \$5,687,000. The residents of the proposed Town of Cuba Cuba Lake Sanitary Sewer District will be solely responsible for the Town of Cuba portion of the cost, which has an estimated maximum amount proposed to be expended for the construction of such Sanitary Sewer Improvement of \$5,497,000 which amount is to be financed by the issuance of serial bonds (including long-term low-interest loans obtained from the New York State Environmental Facilities Corporation) not to exceed the amount of \$5,687,000, offset by any funds received from the Town of Ischua for its \$190,000 portion of the project, and grants from the United States of America, and/or the State of New York, and/or the County of Allegany, and the assessment, levy and collection of special assessments from the several lots and parcels of land within the District which the Town Board shall determine and specify to be especially benefited thereby, so much upon and from each as shall be in just proportion to the amount of benefit conferred upon the same, to pay the principal of and interest on said bonds as the same shall become due and payable. The Town Board plans to assess said properties based on an Equivalent Dwelling Unit (EDU) value assigned to each tax parcel, using the following criteria: (1) vacant, undeveloped parcel greater than 0.25 acres in size – 0.25 EDU; (2) parcel with Single Family Housing – 1 EDU per housing unit; (3) Parcel with Multi-Family Housing - 1 EDU per housing unit; and (4) Parcel with Commercial Development – EDU Value based on actual water usage, compared to the average residential usage, to pay the principal of and interest on said bonds as the same shall become due and payable; and

WHEREAS, the expected average annual cost to the Typical Property (as defined by Town Law) in the proposed District (which is a single family home) during the first year will be \$576, and there no other expected first year costs; and

WHEREAS, the Town Board has pursuant to an Order Calling for a Public Hearing, which Order was duly posted and published, held a public hearing on January 9, 2007 to consider the creation of the proposed District, at which hearing all members of the public were given an opportunity to be heard.
